5 Reasons to Choose Akibia for IBM Systems Maintenance & Support

- **Comprehensive Hardware and OS Support for IBM systems** – including Power Systems, pSeries, RS6000, xSeries, iSeries, AS/400, Netfinity, FastT, DS series disc systems, etc.
- **Cost-effective alternative to traditional IBM support** – with Akibia's innovative self-maintenance solution, "Service Partner"
- **Best-in-class IBM training** – to enable our clients' IT staff to effectively support their own IBM systems
- **Extensive experience supporting mission-critical IBM systems** – including p5 and p6 based systems
- **Support for End-of-Life and End-of-Service IBM systems**

As a multivendor, multi-platform provider, Akibia supports **IBM, Sun, HP** and **Dell** hardware running **UNIX, Linux or Windows**. With over 20 years in business, we have supported hundreds of thousands of mission-critical systems for our **Fortune 1000** clients, many of whom have diverse data centers running 5,000 or more systems.

By leveraging best practices and proven processes, **Akibia saves these organizations an average of 35 percent on support costs.**

The Akibia Difference:

- **Focus on Service** - Founded as an independent services company, Akibia has no hardware agenda and is solely focused on delivering the highest quality of service and support.
- **Customized Support Solutions** - Akibia delivers customized solutions on a per server basis, designed to meet the specific needs and IT requirements of our customers.
- **Multivendor, Multi-platform Support** - Akibia supports Sun, HP, Compaq and Dell hardware running UNIX, Linux or Windows.
- **Cost-Effective Alternative** - Akibia's "Service Partner" solution is an innovative approach to self-maintenance that offers significant savings over traditional support.
- **Our Customers** - With 20 years experience supporting multivendor, multi-platform data center environments, we have worked with some of the most demanding, mission-critical data centers in the world.

About Akibia, Inc.

Akibia provides innovative IT solutions that enable leading companies worldwide to optimize, secure, manage and support their mission-critical infrastructure. As an independent advisor, Akibia partners with its customers to deliver solutions that improve the availability and performance of their data center and security infrastructure.
